**SKILLMAN FOUNDATION**
Target community of the GOOD Neighborhoods program focusing on increasing investments to strengthen services and impacts including: Creating safe and healthy places for children and families to live and play; creating a system of high-quality, accessible, youth development programs that support academic achievement, develop leadership abilities, and promote safe and productive lifestyles; and improving the economic well-being of children and families through wealth-building strategies, including youth employment.

**DETOUR LISC**
Target community for the Building Sustainable Communities program, with the goals of: developing, preserving, and investing in the physical environment; increasing family income and wealth; stimulating economic activity, locally and regionally; improving access to quality education; and fostering livable, safe and healthy environments.

**DETOUR WORKS PROJECT**
As part of the Short Term Actions for the DETOUR Works Project three Demonstration Areas have been identified within the city where there will be realigning of some city services and leveraging investments, while working with the community to improve the market conditions in these areas.
